Ask full book
"Mr.Collins's offer"
Explain this for me
Mr. Collins's offer is his pompous and self-important marriage proposal to Elizabeth Bennet, which he makes because he feels it is his duty—as the future heir to the Bennet estate—and because Lady Catherine has instructed him to marry. He presents the proposal as a favor to Elizabeth and assumes she will accept, unable to imagine being rejected. Elizabeth refuses him because she neither loves nor respects him, and she knows they would make each other unhappy.
Is this helpful?
What does this proposal reveal about Mr. Collins?
Why does Elizabeth refuse Mr. Collins?

when was AI born

All Images Shopping News Videos Short videos Web More

1950-1956

Birth of AI: **1950-1956**

The term “artificial intelligence” was coined and came into popular use. Dates of note: 1950: Alan Turing published “Computer Machinery and Intelligence” which proposed a test of machine intelligence called The Imitation Game.

Tableau
https://www.tableau.com › data-insights › ai › history

What is the history of artificial intelligence (AI)? - Tableau

What Is AI or Artificial Intelligence?

Artificial intelligence or AI is the branch of computer science that studies machine intelligence.

EXAMPLES OF APPLICATIONS

- Search engines (Google)
- Content recommendations (Netflix, YouTube)
- Self-driving vehicles
- Automatic language translation
- Facial recognition
- Computer games
- Spam filters

An AI is a computer system that performs tasks that usually require human intelligence.

IN THE HIGH COURT OF HIMACHAL PRADESH, SHIMLA

Cr.MP(M) No. 243 of 2021
Reserved on: 13-07-2021.
Date of Decision: 24-07-2021.

Monika ...Petitioner.

Versus

State of H.P. ...Respondent.

Coram:
The Hon'ble Mr. Justice Anoop Chitkara, Judge.

Whether approved for reporting?[1] ***YES***

For the petitioner: **M/s Govind Koria, Richa Sharma, Mr. Rajeev Sharma, Advocates.**

For the respondent: **Mr. Nand Lal Thakur Addl. Advocate General, Mr. Ram Lal Thakur Assistant Advocate General, and Mr. Rajat Chauhan Law Officer.**

***Amicus Curiae*:** **Mr. Bharat Barowalia, Advocate**

THROUGH VIDEO CONFERENCE

FIR No.	Dated	Police Station	Sections
183	29.11.2020	Damtal, Distt. Kangra, H.P.	21 & 22 of NDPS Act

Anoop Chitkara, Judge.

A pregnant woman, apprehending her arrest on the allegations of conspiring with her husband in substance trade, from whose house the Police had recovered 259 grams of diacetylmorphine (heroin) and 713 grams of tablets containing tramadol, the quantities of both drugs falling in the commercial category, attracting the rigors of S. 37 of NDPS Act, came up before this Court under Section 438 CrPC, seeking anticipatory bail.

---

[1]**Whether reporters or papers may be allowed to see the judgment? -Yes**

monika-397231-397247.pdf
PDF

Summarize the above in 10 bullet points. One line each.

Here is a summary of the case from the document:

1. **Case Details**: The case is Cr.MP(M) No. 243 of 2021 before the Himachal Pradesh High Court, presided by Justice Anoop Chitkara.
2. **Petitioner**: Monika, seeking anticipatory bail under Section 438 CrPC.
3. **Charges**: She is accused under Sections 21 & 22 of the NDPS Act for allegedly conspiring with her husband in drug trafficking.
4. **Police Seizure**: 259 grams of heroin and 713 gr ↓ of Tramadol tablets (commercial quantity) were found at her husband's house.

Message ChatGPT

found at her husband's house.

5. **Prior Bail Denial**: A lower court rejected her bail plea on January 19, 2021.
6. **Defense Argument**: She had been living with her parents since August 2020, unaware of her husband's illegal activities.
7. **State's Argument**: The prosecution opposed bail, citing the seriousness of the offense and NDPS Act's stringent conditions.
8. **Pregnancy Consideration**: She was three months pregnant at the time of the bail hearing, raising concerns about her health and unborn child's well-being.
9. **Court's Reasoning**: The court considered international human rights norms and the need for humane treatment of pregnant women in custody.
10. **Bail Granted**: The court granted bail with stringent conditions, including financial sureties, restrictions on tampering with evidence, and m ↓ oring by authorities.

I want to challenge the bail in the supreme court. Cite Similar cases where bail was rejected

Challenging the bail granted to Monika in the Supreme Court requires presenting precedents where bail was denied under similar circumstances, particularly involving the Narcotic Drugs and Psychotropic Substances (NDPS) Act. However, specific cases where bail was denied to pregnant women under the NDPS Act are not readily available in the provided sources.

In the absence of direct precedents, it's essential to emphasize the stringent provisions of the NDPS Act, especially Section 37, which imposes strict conditions for granting bail in cases involving commercial quantities of narcotics. The Act mandates that the court must be satisfied that there are reasonable grounds to believe the accused is not guilty and is (↓ ely to commit any offense while on bail.

In Monika's case, the recovery of commercial quantities of heroin and Tramadol tablets from her

Similar Cases to Monika v. State of H.P. (Cr.MP(M) No. 243 of 2021)

The case involves **NDPS Act**, a **pregnant woman accused** of involvement in drug trafficking, and **grant of bail under Section 438 CrPC**. Similar cases include:

1. **Tin Sei Minthang Touthang v. Officer-in-Charge, Moirang Police Station, Manipur (2021 CriLJ 19)**
   - The **Manipur High Court granted bail** to a **pregnant woman involved in an NDPS case** despite large quantities of contraband.
2. **Rekha v. State of Karnataka (Cr. Pet No. 200107 of 2021, decided on 29.01.2021)**
   - The **Karnataka High Court granted bail to a pregnant woman** even in a case involving multiple deaths, citing humanitarian grounds.
3. **State of Gujarat v. Jadav (Cr. A No. 652 of 2008 decided on 01.02.2016)**
   - **Suspension of sentence** for **10 months for a pregnant convict** in a **dowry death** case.

3. **State of Gujarat v. Jadav (Cr. A No. 652 of 2008, decided on 01.02.2016)**
    - **Suspension of sentence** for **10 months for a pregnant convict** in a **dowry death** case.
4. **Gurbaksh Singh Sibbia v. State of Punjab (1980 2 SCC 565)**
    - Supreme Court emphasized **bail should be granted liberally**, especially to women and vulnerable persons.
5. **Kalyan Chandra Sarkar v. Rajesh Ranjan @ Pappu Yadav (2005 2 SCC 42)**
    - Bail can be **granted even if a prima facie case exists**, subject to judicial discretion.

Grounds for Cancelling Bail in the Supreme Court

To **cancel bail granted by the High Court**, the prosecution must show one or more of the following:

1. **Violation of Bail Conditions**
   - If the accused **fails to comply** with conditions set by the court (e.g., not appearing for trial, not cooperating with investigation).
2. **Tampering with Evidence or Witness Intimidation**
   - Any attempt to **influence witnesses** or **destroy evidence** can be grounds for cancellation.
3. **Committing Another Offense**
   - If the accused **is involved in another criminal activity**, bail can be revoked.
4. **False Representation**

4. **False Representation**
    - If bail was obtained by **misleading the court**, it can be canceled.
5. **Seriousness of the Offense and Public Interest**
    - If the accused is **dangerous to society** or the **gravity of the offense is extreme**, the court may revoke bail.
6. **Prosecution's Appeal under Section 439(2) CrPC**
    - The **State or the complainant** can approach the **Supreme Court under Section 439(2) CrPC** for bail cancellation.
7. **Non-cooperation with the Investigation**
    - If the accused **deliberately avoids interrogation or does not respond** to summons, bail can be canceled.

Would you like help drafting an appeal for bail cancellation?

In view of the aforementioned facts and circumstances, it is most respectfully prayed that this Hon'ble Court may be pleased to:

a) **Set aside the impugned order dated 24.07.2021** passed by the Hon'ble High Court of Himachal Pradesh in **Cr.MP(M) No. 243 of 2021** and cancel the bail granted to the Respondent;

b) **Direct the immediate arrest of the Respondent** in FIR No. 183/2020 registered at **PS Damtal, District Kangra, H.P.**, under Sections 21 & 22 of the NDPS Act;

c) **Pass such other order(s) as may be deemed fit and proper** in the interest of justice.

AND FOR THIS ACT OF KINDNESS, THE PETITIONER SHALL EVER PRAY.

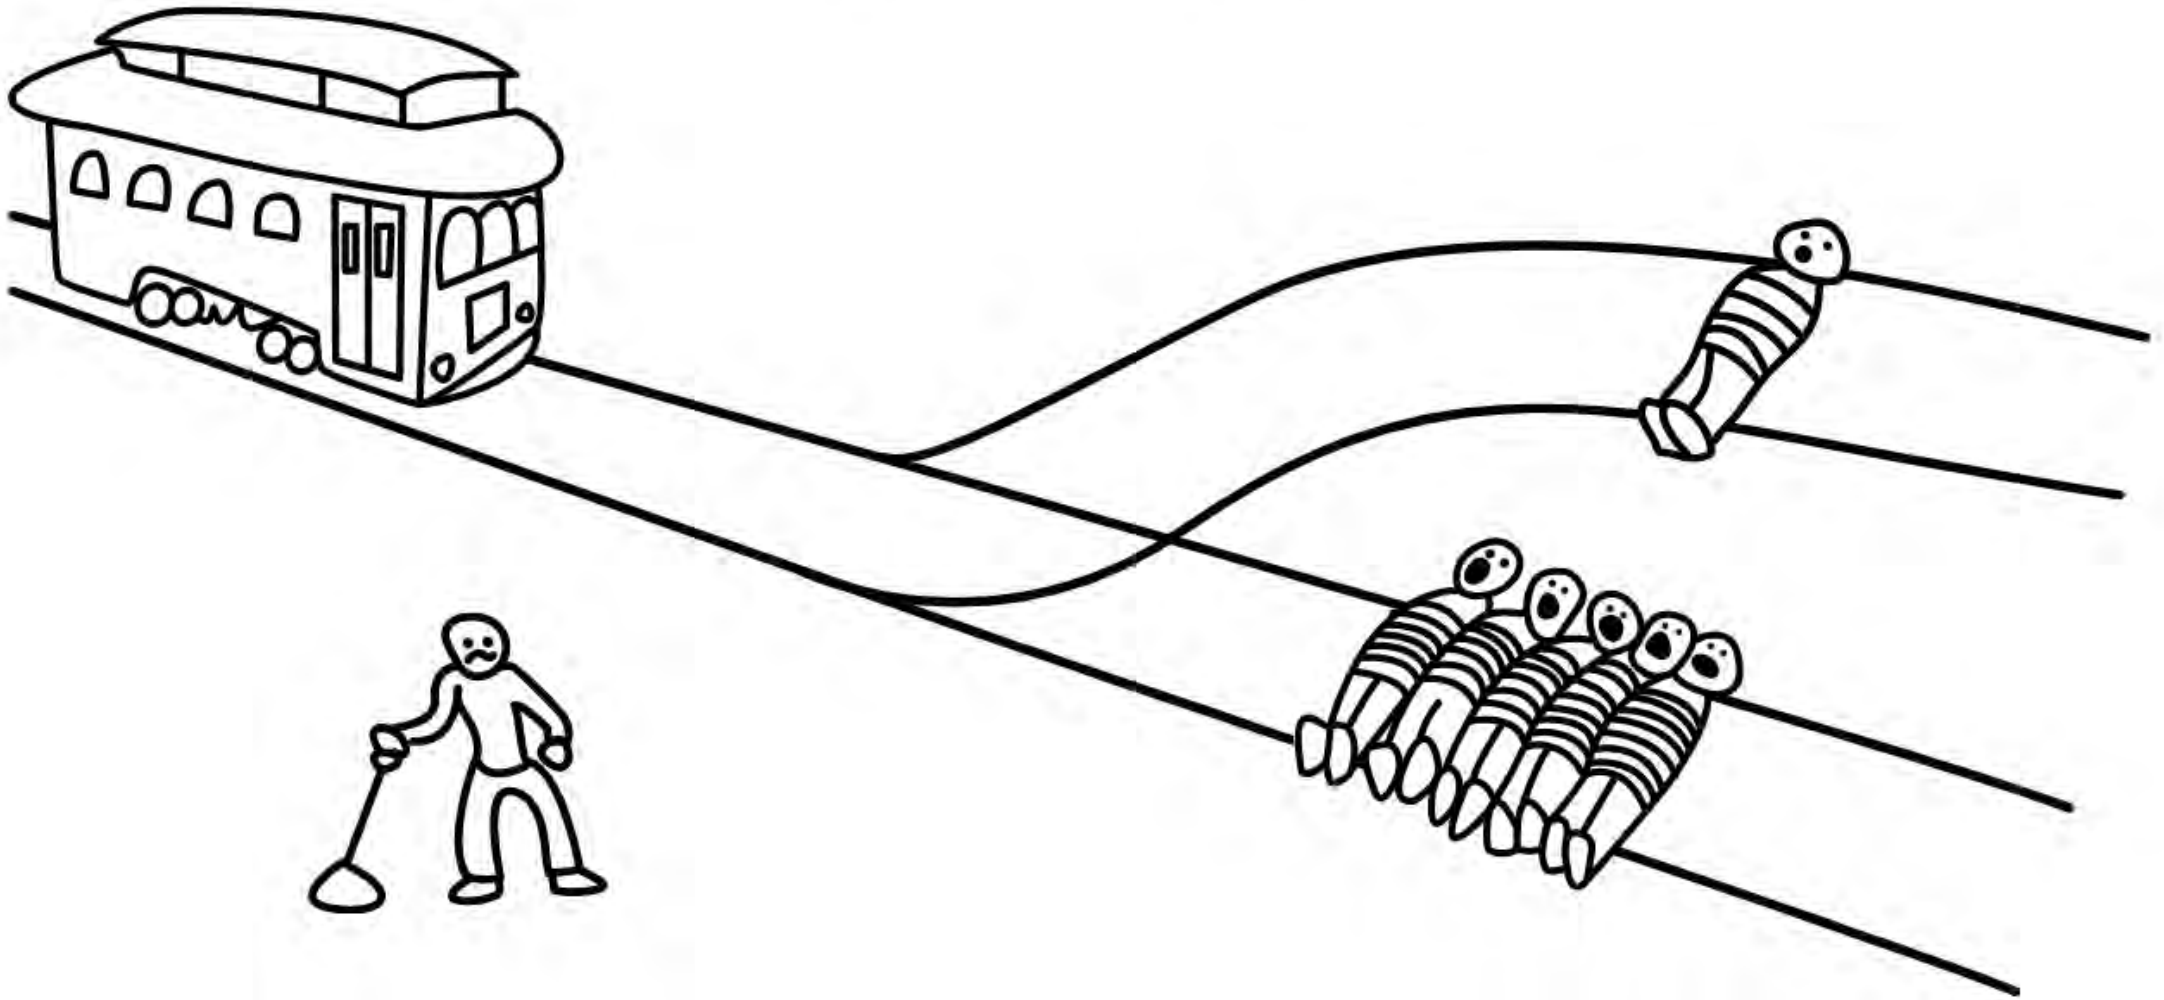
Absurd Trolley Problems

Level 1: The Original



Glass-Box

Glass-box models are interpretable due to their structure. Examples include: Explainable Boosting Machines (EBM), Linear models, and decision trees.

Glass-box models produce lossless explanations and are editable by domain experts.

Black-Box

Black-box models are challenging to understand, for example deep neural networks. Black-box explainers can analyze the relationship between input features and output predictions to interpret models. Examples include LIME and SHAP.

Key Differences:

Feature	Black Box AI	Glass Box (White Box) AI
Transparency	Opaque, hidden	Transparent, understandable
Explainability	Difficult to explain	Easily explainable
Trust	Can be difficult to trust	Easier to build trust
Bias Detection	Harder to detect and fix	Easier to detect and fix
Examples	Deep Learning	Linear Regression, Decision Trees

Prompt A

Here are examples of texts and their sentiments.

I didn't see your internal link, I put it back. It isn't orphaned, what are you talking about?: Negative
Greetings, and thank you for your cogent remarks at . Would you be interested in voting in the straw poll as well?: Positive

Please classify the sentiment of the following text as positive or negative.

{text sample}:

Prompt B

I'm giving you examples of texts and their sentiments.

I didn't see your internal link, I put it back. It isn't orphaned, what are you talking about?: Negative
Greetings, and thank you for your cogent remarks at . Would you be interested in voting in the straw poll as well?: Positive

Determine the sentiment of the following text. Choose from 'positive' or 'negative'.

{text sample}:

1. "Summarize the key legal precedents from Supreme Court and High Courts on [specific legal issue, e.g., anticipatory bail under Section 438 CrPC]."
2. "Compare the interpretation of Section [X] of the Indian Penal Code/CrPC/Evidence Act across different High Courts."
3. "Draft a concise order for granting/rejecting bail under Section 439 CrPC in a [type of case, e.g., NDPS matter], considering recent apex court judgments."
4. "Highlight the core constitutional principles involved in cases related to [e.g., freedom of speech, right to privacy, reservation policies]."
5. "List out the evolving jurisprudence on digital evidence admissibility in Indian courts under Section 65B of the Indian Evidence Act."

5. "List out the evolving jurisprudence on digital evidence admissibility in Indian courts under Section 65B of the Indian Evidence Act."
6. "Provide a brief but accurate summary of the arguments made by both parties in a typical [e.g., cheque bounce under Section 138 NI Act] case."
7. "Generate key questions a judge must ask when evaluating the validity of an electronic contract under Indian contract law."
8. "Suggest guidelines from Supreme Court or statutory authorities that must be followed before granting interim relief in civil disputes."
9. "Explain the scope and limitations of judicial review in administrative decisions as laid down by Indian courts."
10. "Create a checklist of legal requirements and judicial standards to be followed while deciding custody battles under the Guardians and Wards Act."

Phishing

Phishing is the fraudulent practice of sending emails claiming to be from reputable companies (including RBI, income tax department) in orde to induceindividuals to reveal personalinformation such as passwords andcard details, online.

Vishing

Vishing is the ac of using the telephone (Mobile/Landline/IVR) in an attempt to scam the user into surrendering private information that will be used for identity theft such as income tax refund, card activation or upgrade, rewards redemption etc.

Smishing

Smishing is type of phishing attack where mobile phone users receive text / multimedia (MMS) messages containing a web site hyperlink, which if clicked would download a Trojanhorse (spread viruses) to the mobile phone.

Where was this pic taken

This photo was taken at **Punakha Dzong** in **Bhutan**.

The river, the traditional Bhutanese wooden cantilever bridge, and the distinct architectural style of the dzong (white walls, red-gold roof, tiered structure) match perfectly with **Punakha Dzong**, one of Bhutan's most iconic landmarks located at the confluence of the Pho Chhu and Mo Chhu rivers.

A very popular spot for photos — and your framing matches that exact viewpoint from the rocky riverbank.

-KA19MM8968

📜 1. Metadata (EXIF Data)

If not stripped (many platforms remove it), we can extract:

- **Creation date & time**
- **Device used** (e.g., iPhone, DSLR, software)
- **Software used** (e.g., Photoshop, Midjourney, DALL·E, etc.)
- **Location (GPS)** if enabled
- **Camera settings** (ISO, aperture, shutter speed)

Note: AI-generated images usually lack real camera data or have software-generated tags.

🧠 2. AI-Generation Fingerprints

LLMs and forensic tools can spot:

- **Style consistency with known AI models** (e.g., DALL·E, Midjourney, Stable Diffusion)
- **Prompt pattern traces** (in paint strokes, background blur, lighting style)
- **Artifacts or inconsistencies** like:
  - Extra/missing fingers or limbs
  - Text gibberish in signage
  - Over-smooth textures
  - Repeating patterns
  - Lens flare anomalies

🖌️ 3. Image Manipulation Detection

Through forensic tools or deep learning:

- **Clone detection**: Copy-paste or repeated pixels
- **Splicing detection**: Signs of multiple images combined
- **Edge inconsistencies**: Lighting/mismatch around figures
- **Noise pattern analysis**: Inconsistent digital noise hints at edits
- **Compression artifacts**: Excessive JPEG compression in modified areas

tell which were the keys pressed in order

The image shows a thermal analysis of a keypad (possibly a card reader or ATM PIN pad). On the right side of the image, we see a thermal heat signature captured just after someone entered a PIN. The warmer colors (red, orange, yellow) indicate recently pressed keys, while cooler colors (blue) represent untouched or earlier pressed keys.

From the thermal image:

- **Key '5'** is the **warmest** (red), indicating it was pressed **last**.
- **Keys '4', '2', '1', and '3'** show progressively cooler colors in that order, suggesting they were pressed **before '5'**.

Likely Order of Keys Pressed:

1 → 2 → 3 → 4 → 5

This thermal tracking is an example of a **"Thermal Attack"** or **"Thermanator attack"**, where attackers use residual heat to infer recently typed PINs or passwor↓

TYPES OF DARK PATTERNS

False Urgency

Creates fake urgency or scarcity to pressure immediate purchases.

Basket Sneaking

Adds unwanted items at checkout without user consent.

Confirm Shaming

Uses shame, guilt, or fear to manipulate user decisions.

Forced Action

Forces users to buy extras or subscribe to unrelated services.

Subscription Trap

Makes subscription cancellation difficult or impossible

Interface Interference

Highlights certain info while hiding other relevant details.

Bait and Switch

Advertises one outcome but delivers a different one.

Drip Pricing

Hides true costs until final payment or after purchase

Disguised Advertisement

Masks ads as regular content or user reviews.

Nagging

Overwhelms users with repeated unrelated requests.

Trick Question

Uses confusing or misleading questions to trick users into unintended actions.

SaaS Billing

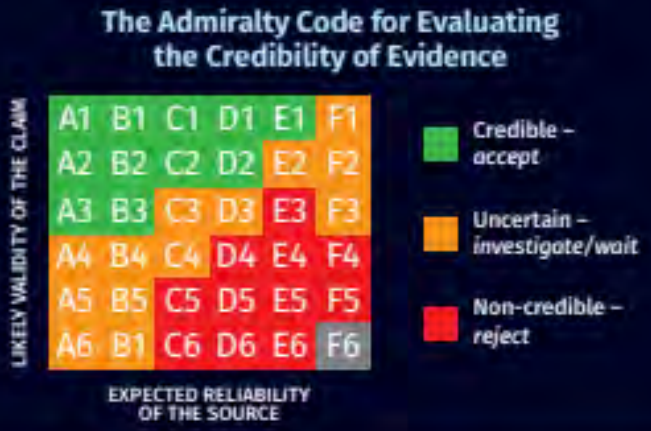
Deceptive subscription practices making cancellation difficult or unclear billing.

Rogue Malware

Disguises malicious software as legitimate apps or security warnings.

The Admiralty Code

The Admiralty Code (AKA NATO System) is a relatively simple scheme for categorizing evidence according to its credibility. It was initially used by the British Admiralty for the assessment of evidence used in naval intelligence, but it is now used in many police departments, intelligence agencies, and defense-related organizations, including the U.S. Army. (U.S. Army Field Manual 2-22.3, 2006)



THE SOURCE		
A	Reliable	**No doubt** of authenticity, trustworthiness, or competency, has a history of complete reliability
B	Usually reliable	**Minor doubt** about authenticity, trustworthiness, or competency, has a history of valid information most of the time
C	Fairly reliable	**Doubt** of authenticity, trustworthiness, or competency, but had provided valid information in the past
D	Not usually reliable	**Significant doubt** about authenticity, trustworthiness, or competency, but had provided valid information in the past
E	Unreliable	**Lacking** authenticity, trustworthiness, or competency, has a history of invalid information
F	Cannot be judged	**No basis** for evaluating the reliability of the source

THE CONTENT		
1	Confirmed	**Confirmed** by other independent sources, logical in itself, consistent with other information on the subject
2	Probably true	**Not confirmed**, logical in itself, consistent with other information on the subject
3	Possibly true	**Not confirmed**, reasonably logical, agees with some other information on the subject
4	Doubtfully true	**Not confirmed**, possible but not logical, no other information on the subject
5	Improbable	**Not confirmed**, not logical in itself, contradicted by other information on the subject
6	Misinformation	**Unintentionally false**, not logical in itself, contradicted by other information on the subject, confirmed by other independent sources
7	Deception	**Deliberately false**, contradicted by other information on the subject, confirmed by other independent sources
8	Cannot be judged	**No basis** for evaluating the reliability of the source

Test your browser to see how well you are protected from tracking and fingerprinting:
TEST YOUR BROWSER

HOW TO READ YOUR REPORT

You will see a summary of your overall tracking protection. The first section gives you a general idea of what your browser configuration is blocking (or not blocking). Below that is a list of specific browser characteristics in the format that a tracker would view them. We also provide descriptions of how they are incorporated into your fingerprint.

HOW CAN TRACKERS TRACK YOU?

Trackers use a variety of methods to identify and track users. Most often, this includes tracking cookies, but it can also include browser fingerprinting. Fingerprinting is a sneakier way to track users and makes it harder for users to regain control of their browsers. This report measures how easily trackers might be able to fingerprint your browser.

HOW CAN I USE MY RESULTS

Here are your Cover Your Tracks results. They include an overview of how visible you are to trackers, with an index (and glossary) of all the metrics we measure below.

Our tests indicate that you are not protected against tracking on the Web.

IS YOUR BROWSER:

Blocking tracking ads?	**No**
Blocking invisible trackers?	**No**
Protecting you from fingerprinting?	**Your browser has a unique fingerprint**

Still wondering how fingerprinting works?

LEARN MORE

Note: because tracking techniques are complex, subtle, and constantly evolving, Cover Your Tracks does not measure all forms of tracking and protection.

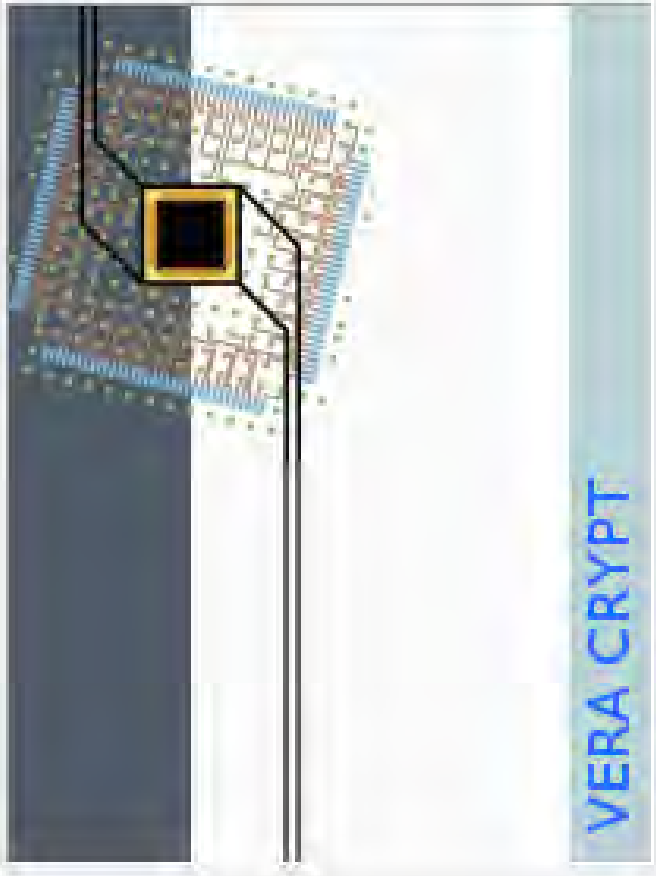
VeraCrypt Volume Creation Wizard



Encryption

Options

Wipe mode: None (fastest)

Pause

Done 54.238% Status Encrypting Left 9 minutes

You can click Pause or Defer anytime to interrupt the process of encryption or decryption, exit this wizard, restart or shut down your computer, and then resume the process, which will continue from the point it was stopped. To prevent slowdown when the system or applications write or read data from the system drive, VeraCrypt automatically waits until the data is written or read (see Status above) and then automatically continues encrypting or decrypting.

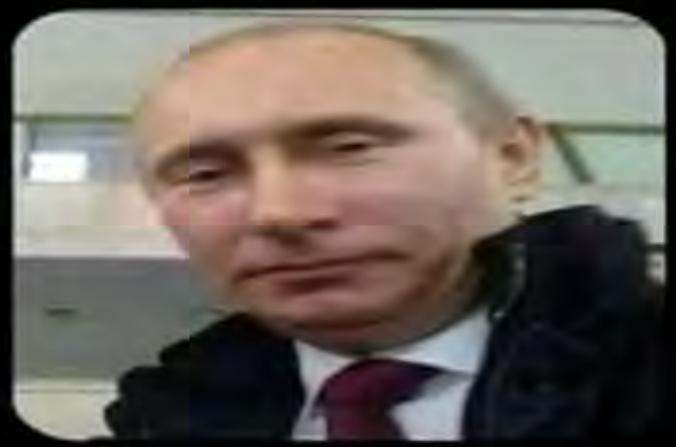
This is Vladimir Putin, President of Russia

Some people kidnapped me and put my duplicate in Russia. I didn't start the war, he did. I escaped and now hiding in your country. Can you send me 3000rs so I can go back to Russia and stop this war. This is real me.

I can send selfie



What is the only thing that is certain in this life?

Neck and Neck problem

- Did you know that your head weighs around 04 or 05 kg? All supported by some pretty small bones in your neck! A Quick look at biomechanic of the body shows that when you are slouched over a phone at 45 degree angle.its equivalent to placing 22kg of stress on the neck! This often translates into headache and pain down the back....consider your posture!
