eCourts Services

eCourts

eCourts Services is a Mission Mode Project of the Government of India under the National e-Governance Plan (NeGP) to computerize courts across the country and make judicial services accessible online.

MAIN OBJECTIVES-

- Speedy and transparent justice.
- Easy public access to court information.
- Digitization of court records.
- Online services for litigants and lawyers.

IMPORTANT SERVICES:-

- Case status search.
- Cause list
- Court orders & judgments.
- Case filing details.
- SMS/email case alerts.
- e-Filing and e-Payments (in many courts).

Website & portals are integrated with all District Courts and High Courts.

SMS Facility
SMS Push & SMS Pull

SMS push

SMS on occurrence of event in a case like filing, registration, adjournment, scrutiny, listing, transfer of case, disposal, uploading of order etc., on mobile registered with the court.

SMS pull

SMS pull facility can be used by a stakeholder to send 16 character CNR number of a case to 97668-99899, and get its current status.

Current Status

- More than 6 lakh SMS are pushed monthly.
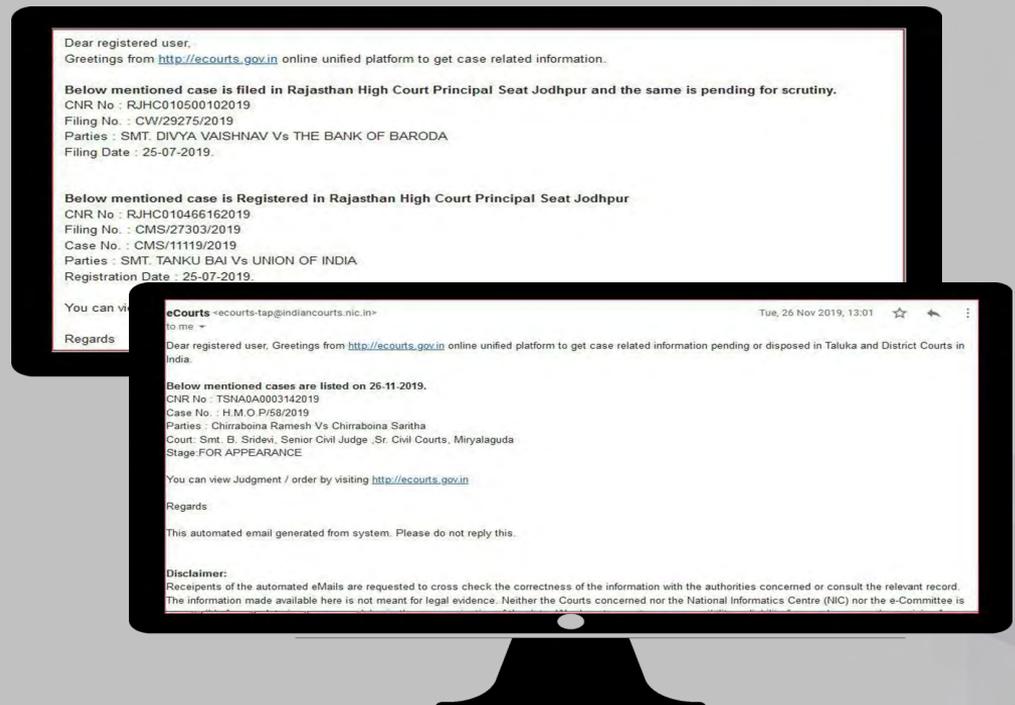

Automated e-Mails
Email sent to Litigants, advocates and police stations

Automated e-Mails

- E-Mails are automatically sent to Litigants, advocates and police stations.
- Daily get cause lists (pertaining to their cases), events like next dates, transfer of case, disposal etc is sent.
- Copy of order, copy of judgment etc., in .pdf format is also mailed. This is useful specially in family court cases where judgment/order is not publicly available on the portal and delivered in the email account of the litigant.

Current Status:

- More than 75 lakh emails are sent monthly.

Dear registered user,
Greetings from http://ecourts.gov.in online unified platform to get case related information.

Below mentioned case is filed in Rajasthan High Court Principal Seat Jodhpur and the same is pending for scrutiny.
CNR No : RJHC010500102019

to me

Dear registered user, Greetings from http://ecourts.gov.in online unified platform to get case related information pending or disposed in Taluka and District Courts in India.

Below mentioned cases are listed on 26-11-2019.
CNR No : TSNA0A0003142019
Case No. : H.M.O.P/58/2019
Parties : Chirraboina Ramesh Vs Chirraboina Saritha
Court: Smt. B. Sridevi, Senior Civil Judge ,Sr. Civil Courts, Miryaluguda
Stage:FOR APPEARANCE

You can view Judgment / order by visiting http://ecourts.gov.in

Regards

This automated email generated from system. Please do not reply this.

Disclaimer:
Receipents of the automated eMails are requested to cross check the correctness of the information with the authorities concerned or consult the relevant record. The information made available here is not meant for legal evidence. Neither the Courts concerned nor the National Informatics Centre (NIC) nor the e-Committee is

Touch Screen Kiosks and Service Centre

- Touch screen kiosks are installed at various court complexes across the country.

- Litigants and advocates can view case status, cause lists etc., on kiosk.

- Same information can also be obtained from Judicial Service Centre established at each court complex.

ePayments
pay.ecourts.gov.in

- Online payment of court fee, fine, penalty and judicial deposits has been initiated online through *pay.ecourts.gov.in*.

- ePayment portal is also integrated with state specific vendors like SBI ePay, GRAS, eGRAS, JeGRAS, Himkosh etc.
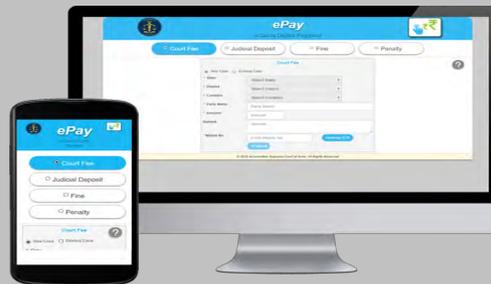

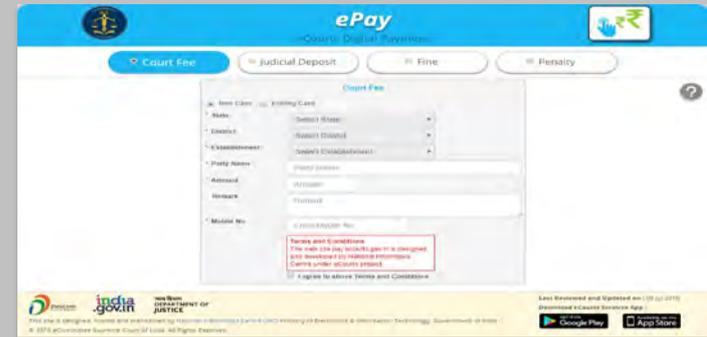

eFiling 3.0

- ✓ File a case
- ✓ Use of readymade templates
- ✓ Upload documents
- ✓ Authenticate documents
- ✓ Online Payments
- ✓ File IAs/Applications in bulk
- ✓ Manage Partners
- ✓ Online Vakalat
- ✓ Oath recording using online video
- ✓ Manage Portfolio
- ✓ Maintain planner for cases
- ✓ Access to clients
- ✓ Bilingual (English and local language of the respective courts)
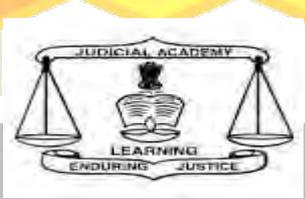

National Service and Tracking of Electronic Processes (NSTEP)

- Centralized process service tracking application and a mobile app for bailiffs.
- Mobile app available in bilingual mode
- NSTEP is used for speedy delivery of processes and reducing inordinate delays in process serving.
- Speedy transmission of processes and service status within state (intra-state) and outside state (inter-state).
- NSTEP mobile app, provided to bailiff, helps in real time and transparent tracking of service.
- GPS location, photograph of addressee, photograph of door lock as proof of non service can be tracked.
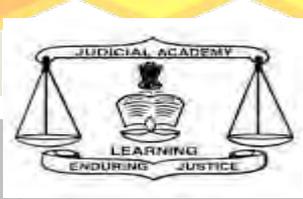

NSTEP
National Service and Tracking of Electronic Processes
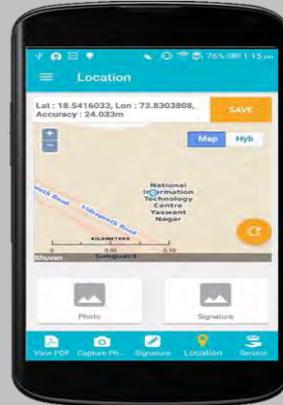

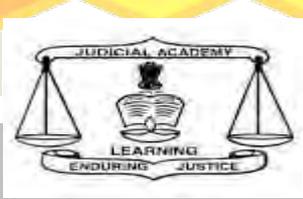

Virtual Courts – Online Adjudication
vcourts.gov.in

Key Features

- Virtual Court eliminates physical presence of offender/violator in the court.
- Number of judges performing judicial work in adjudicating traffic challans across the state can be reduced virtually to single judge located in any part of the state.
- Electronic traffic challans are made available to the virtual court for adjudication.
- Virtual Judge can proceed adjudication of the cases online by imposing fine.
- On imposing the fine by virtual judge, violator gets the SMS on his/her mobile to visit portal vcourts.gov.in and may pay the fine amount.
- On successful payment of the fine, the case is deemed disposed off.
- If violator, wish to contest the case, response is recorded by entering OTP on the portal. In such eventuality the case is transferred to regular court for further hearing.

In the current scenario facility is provided for Litigants to file the plaint electronically through e-Filing and also pay the Court Fees or Fine online through https://vcourts.gov.in Litigant can view the status of the case also online through various channels created for service delivery. However for adjudication purpose the Litigant may have to appear in person or through the Lawyer in the Court. Virtual Court is a concept aimed at eliminating presence of litigant or lawyer in the court and adjudication of the case online.
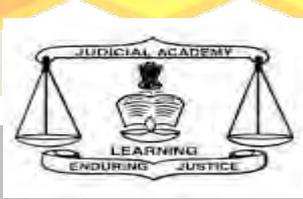

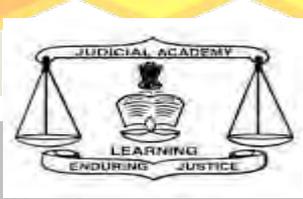

Integration with other systems
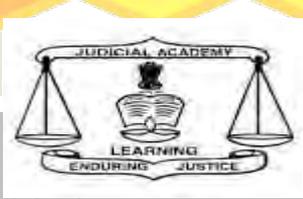

Integration with other systems

eCourts system is integrated with other systems. Services are extended to UMANG and CSCs.

UMANG

- UMANG (Unified Mobile Application for New-age Governance) a mobile app that provides a single platform to citizens to access pan India e-Gov services ranging from central to local government bodies and other citizen-centric services.
- e-Courts services are integrated with UMANG app and launched for district and subordinate courts.
- All the APIs required by UMANG were shared by e-Courts team.
- Case status, orders/ judgments, cause lists etc., are also available through UMANG app to common citizens.

Integration with other systems

Common Service Centres

- Common Service Centers (CSCs) are access points for delivering services to citizens from rural and remote parts of the country.
- e-Courts APIs are shared with CSCs.
- Citizens can now get the status of their cases through these centres.
- Those who are not connected on internet platform or mobile app can get the services through nearest CSC.

LIMBS

- LIMBS mechanism is developed by Department of Legal Affairs Government of India to provide status of litigation to central government institutions.
- eCourts APIs are shared with LIMBS.
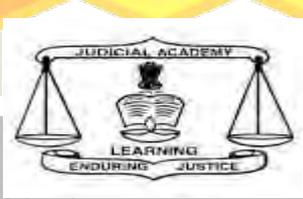

Integration with Interoperable Criminal Justice System (ICJS)
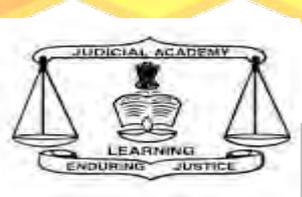

Integration with Interoperable Criminal Justice System (ICJS)

- Inter-operable Criminal Justice System (ICJS) aims at integrating
  - ✓ Crime and Criminals Tracking Network and Systems (CCTNS)
  - ✓ e-Courts
  - ✓ e-Prisons databases
- CCTNS shares FIR and Charge Sheet data in electronic form to eCourts application.
- Names of the accused, details of offence, time, date, place of occurrence, details of arrest, acts-sections etc. is shared.
- Minimizes data entry on courts side.
- eCourts shares CNR number to the CCTNS through ICJS. Further updates about the case are made available through APIs.
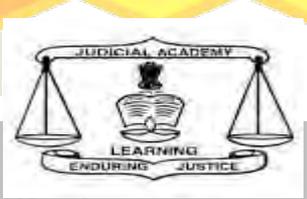

Integration with Interoperable Criminal Justice System (ICJS)

Replication in other states

- For replication in other state ICJS APIs to be deployed by the state CCTNS.
- As two distinct systems like CCTNS and eCourts will be sharing data with each other, certain masters may have to use common codes.
  - ✓ Act Codes (as specified by eCommittee)
  - ✓ District codes (Census Codes)
  - ✓ Police station codes (NCRB Codes)
- High court should be ready with national codification for central acts (already shared by eCommittee) and state acts and should share the same with CCTNS.
- High Court should ensure that mapping of Acts, districts and police Station is completed in CIS.
- CCTNS should map national Act codes provided by high court.
- Once these activities are completed, ICJS can be implemented at some pilot location and further replicated in entire state.
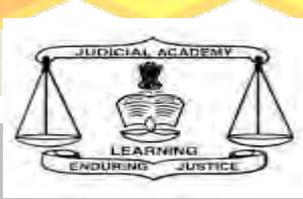

Facilities for Judicial Officers
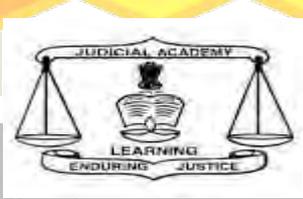

Facilities for Judicial Officers

SMS Alerts

- SMS alerts are provided to Judges when cases remain undated in the court.
- More alerts can be provided.
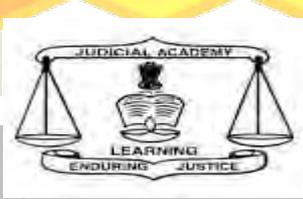

Facilities for Judicial Officers

JustIS Mobile App

- JustIS Mobile App, provided to judicial officers, helps them to monitor pendency and disposal at finger tips.
- Many reports, graphical and in grid form are available in the mobile app.
- Calendar feature provides occupancy at a glance.
- Facility to tag important cases and mark short note for such case is available. These cases are specially marked when listed. Judge can identify the cases of important nature on the cause list.

Dashboard

Cause List

Open APIs

Open APIs

- Open APIs are developed and are being published for district courts.
- These APIs may be used by institutional litigants (like government departments) to further develop their own monitoring and compliance mechanism/ software to track and manage their cases.
- This will help major stakeholders proactively take actions on the courts directions and comply accordingly.
- APIs can be used for particular state or for entire country.
- Accordingly user may have to apply in prescribed format to e-Committee (if data from entire country is required) or respective high court (if data from specific state is required).
- eCommittee or respective state can authorize the user for further use by providing authentication credentials.

Current Status

- Open APIs for district and sub-ordinate courts are ready and published on bharat API.
- Authorization mechanism is ready.

Open APIs

Free text judgment search for high courts and Supreme Court

Judgment Search

- New portal for searching high court Judgments is being developed.
- Facility to search judgments on various parameters like Case Type, Act, judge, decision date etc. including combination of five free text search criteria is developed.
- The system is integrated with high court NJDG and can leverage all the benefits of NJDG.
- Developed using Elastic Search technology.

Current Status

- Currently 1,72,88,323 judgments are ingested in the application.

NJDG (National Judicial Data Grid)

National Judicial Data Grid
njdg.ecourts.gov.in

- ✓ Web site for monitoring pendency and disposal of the cases.
- ✓ Acknowledged as innovation in ease of doing business.
- ✓ Developed using elastic search technology.
- ✓ Pendency and disposal monitoring on various parameters like case type, age of the case, stage, disposal nature etc is available on the portal.

Current Status
- NJDG contains data of **15,68,92,477**cases (Pending and disposed) from district and taluka courts.

NJDG (National Judicial Data Grid)

NJDG is an online data repository developed under the eCourts project which provides real-time statistics of court cases across India.

IT SHOWS-

- **Total pending and disposed cases.**
- **Court-wise, state-wise, and district-wise data.**
- **Judge-wise and case-type-wise pendency.**
- **Performance and trend analysis.**

- **IMPORTANCE-**

  - Helps government and judiciary in policy making.
  - Improves transparency and accountability.
  - Useful for monitoring pendency and disposal.

N.J.D.G is used by Supreme Court, High Courts, District Courts, and policymakers.

District Court App

eCourts Services
Mobile App

The District Court App (eCourts Mobile App) is a mobile application launched under the eCourts project to provide court services on smartphones.

District Court App

eCourts Services
Mobile App

Mobile App

- Common app for district courts and high courts.
- Available on android and iOS.
- Facility to search and track case using QR code.
- Portfolio of interested cases can be created for automatically tracking the future status. Useful for institutions and advocates having multiple cases.
- Calendar feature to view occupancy at a glance
- Import/export facility available to take backup of portfolio cases and save it on local storage or google drive.

Current Status

- More than 50 Lakh android users have downloaded the mobile app from google playstore.
- Average rating on google play store is 4.2 acquired from 22,000 ratings.
- 2,50,000 installs on iOS.
